

Six Authorized Hydrants for Large Meter Use

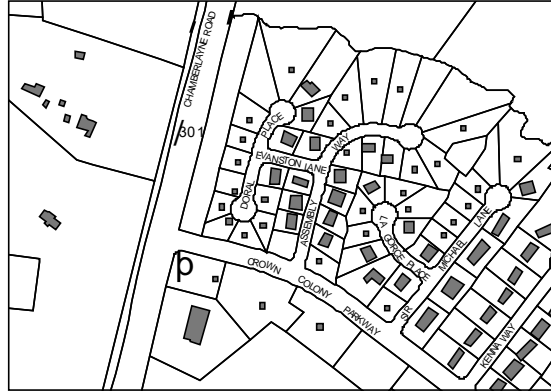

Listed below are the six (6) hydrants that the Hanover County Department of Public Utilities has authorized as approved locations for water withdrawal using a large hydrant meter. The addresses listed are the closest address to the hydrant, not necessarily the exact location to the hydrant.

These approved hydrants have been marked with an orange band around the rim of the hydrants. They are the only locations where water can be legally withdrawn. Withdrawing water from an unapproved hydrant location is unlawful and a Class 1 Misdemeanor.
